RECREATIONAL VEHICLE CERTIFICATION/LISTING PROGRAM

To: All Recreational Vehicle Parks and Campgrounds

Subject: Pacific West Associates, Inc. Recreational Vehicle Listing Program

**Location: 951 Werner Court
Suite 395
Casper, WY 82601**

To All:

Pacific West Associates, Inc. has experienced and built a new relationship in professional certification. We are now rostered as a Primary Certification Body by JD Powers/NADA. As part of this recognition PWA has developed a series of new tools for our clientele. One of these tools is a new and friendlier method of educating Campground Owners about Recreational Vehicle Certification and associated labels of compliance. Northwood Mfg., Inc. and/or Outdoors RV Mfg. have enclosed a hard copy of this letter in their units for your use in the event of any questions/concerns you may have. The Pacific West Associates, Inc. Certification Seal is equivalent to the RVIA Seal in which both reference the NFPA Standards. We hope this is a convenient method of service for you and we look forward to answering any questions you may have regarding compliance. **The PWA certification exceeds RVIA Standards and is recognized Nation Wide.** If you have any questions please give me a call.

Sincerely,

Chuck Ballard, P.E.
President
